Car Polishes that inspire

Your Partner for Perfection

The Utmost in Polishing Expertise

For perfect polishing, we always go the extra mile. With our innovative mixtures and polishing processes, we ensure that you achieve premium results economically and safely. Above-average investment in research and development makes us the technology leader in the polish industry – and an ideal partner for industry and trade.

Focused on Your Success

The best polish for nearly every surface – this is the result of our consistent focus on polishing technology. We are familiar with the characteristics and peculiarities of various applications and materials down to the finest detail. Customers can rely on us to meet their requirements thanks to close collaboration with leading customers from the paint and automotive industries as well as a comprehensive distribution network.

Research and Development

We develop high-performance formulations in our laboratory.

Large-Scale Production

Complex batch production of the highest quality and adherence to deadlines.

Special Formulas

With hundreds of specially developed formulas, we offer tailor-made products for any task and any surface.

Process Development

Systematic optimization of your polishing processes.

Industry Expertise

Consistently high surface quality with economical consumption.

Automotive Expertise

Unbeatable expertise for automotive manufacturers, suppliers, and detailing professionals.

Specialist

Our Expertise – Your Added Value

Perfection in Polishing

High Performance for the Automotive Industry and Aftermarket Professionals

For polishes that inspire and impress, we develop and produce the most innovative polishing technology.

Menzerna polishing compounds meets the highest industrial standards in automotive plants all over the world. Professionals benefit from this whenever they use our products to shine, polish, maintain, repair and protect cars. The complete and sophisticated range of polishing products is precisely tailored to the needs and challenges of the automotive industry. Polishing compounds and accessories from Menzerna make long-lasting, brilliant polishes possible, even when working quickly with low material consumption.

- Process orientation according to industry standards
- One-step products for efficient work
- Guidance for the user throughout the polishing process
- Maintains the value of the car's paint
- True polishing results without the use of silicones and fillers
- Range of water-based polishes
- Healthy and pleasant working with VOC-free* polishes

*VOC-free means free of Volatile Organic Compounds (VOC) in Acc. with DIN EN ISO 11890-2.

Greater Polishing Performance for Cars

- Removal of scratches, varnish runs, spray, smears, shading, and holograms
- Adjustment of paint finishes
- Creation of various degrees of gloss up to show-car finish
- Refurbishing of surfaces

Industry Expertise

Greater Polishing Performance

Always the best solution – for every user, every step of the way. That is what our full range of polishing technology offers the automotive industry. From highly abrasive grind polishes to long-lasting sealants, our products are designed systematically as a coordinated range. Our powerful products and structured processes help you save time and money, which helps you achieve efficient and brilliant polishes.

The first choice for:

- Automobile manufacturers
- Automotive suppliers

- Detailers
- Car lovers

- Body/paint shops

Healthy and pleasant working,
with innovative polishes.

Product video:

Technology leader

The Menzerna GREEN LINE products protect the health of the user and protect the environment.

The VOC-free* abrasive polishes meet the stringent criteria of DIN EN ISO 11890-2, as they contain no aggressive, highly volatile solvents. Professional users in industry and trades value the far more comfortable processing offered by the Menzerna GREEN LINE product range, which represents perfection in polishing.

VOC-free* abrasive polishes compared to standard products		
	Conventional abrasive polishes	VOC-free* abrasive polishes
Without solvent odor	✗	✓
Comfortable working	✗	✓
No risk to health	✗	✓
No damage to the environment	✗	✓
High abrasion	✓	✓

- ✓ **Healthy:** free from unpleasant, harmful solvent vapors and odors
- ✓ **Comfortable:** significantly more comfortable to work with
- ✓ **Environmentally friendly:** emission-free

*VOC-free means free of Volatile Organic Compounds [VOC] in Acc. with DIN EN ISO 11890-2.

Super Heavy Cut Compound 300

GREEN LINE

High Performance Compound for max. abrasion, VOC-free*.
This VOC-free* high-performance compound leads the field in the removal of sanding marks. Healthier and more comfortable working in professional paintwork applications. Removes 1500 grit sanding marks and signs of use in the shortest time.

Volumes:	250 ml	22201.281.001
	1 l	22201.261.001
	1 kg	22201.260.001

Heavy Cut Compound 400

GREEN LINE

Polishes to gloss in just one process step, without hazardous solvents.
The innovative cut compound for automotive clear coats leaves a dazzling impression everywhere. Gets sanding marks out of the way in record time and works into the finish range - without aggressive, volatile solvents.

Volumes:	250 ml	22200.281.001
	1 l	22200.261.001
	1 kg	22200.260.001

- Advantages:**
- Extremely high abrasion
 - Extremely fast removal of sanding marks
 - High yield
 - High-gloss Finish (HCC400 GREEN LINE)
 - No dust formation
 - VOC-free* in according with DIN EN ISO 11890-2
 - Free from unpleasant solvent odors
 - Easy to handle
 - Silicone free

Polishing tool: **HEAVY CUT FOAM PAD**, Lambs wool

Processing: rotary, orbital

*VOC-free means free of Volatile Organic Compounds (VOC) in Acc. with DIN EN ISO 11890-2.

Heavy Cut Compound 300

High Performance Compound

For maximum abrasion.

This high-performance compound leads the field in the removal of sanding marks by lengths. Ideal for professional vehicle detailing and coating. Removes 1500 grit sanding marks and signs of use in the shortest time without damaging the surface or getting adjacent areas dirty. High performance finish thanks to the latest polishing technologies with diminishing abrasives.

- Advantages:**
- Extremely high abrasion
 - Extremely fast removal of sanding marks
 - High yield
 - Premium polishing compounds
 - No dust formation
 - Easy to handle
 - Silicone free

Polishing tool: **HEAVY CUT FOAM PAD**, Lambs wool

Processing: rotary, orbital

Volumes:	250 ml	22746.281.001
	1 l	22746.261.001
	1 kg	22746.260.001

Polishes to gloss in just one process step.

The innovative cut compound for automotive clear coats leaves a dazzling impression everywhere. Gets sanding marks out of the way in record time. Works into the finish range thanks to the latest polishing technology with diminishing abrasives.

- Advantages:**
- Polishes and produces gloss in one step
 - Saves time thanks to one-step polishing process
 - High efficiency
 - High gloss level
 - Silicone free

Polishing tool: **HEAVY CUT FOAM PAD**, Lambs wool

Processing: rotary, orbital

Volumes:	250 ml	22759.281.001
	1 l	22759.261.001
	1 kg	22759.260.001

Process Example:

HEAVY CUT COMPOUND 400 >> **SUPER FINISH 3800** >> **POWER LOCK ULTIMATE PROTECTION**

3 in 1

One-step Polish: Cut, Gloss & Wax

Medium cut polish, high-gloss finish and sealant in one.

The all-rounder in top form. Reliably removes streaks, swirls and clouding, and provides lasting protection for the high-gloss surface. Shines with ease and speed, making it ideal for the polishing beginner and for the detailing of employee cars and used vehicles.

- Advantages:**
- One-step polishing process: Polish, finish, sealant
 - Fast deep gloss finish
 - Silicone free
 - Overpaintable

Polishing tool: Medium Cut Foam Pad, Soft Cut Foam Pad, Wax Foam Pad, Microfiber cloth

Processing:

Step 1: rotary
Step 2: rotary/orbital
Step 3: orbital

Volumes:

250 ml	22748.281.001
1 l	22748.261.001

Process Example:

SUPER COMPOUND 300 >> ONE-STEP POLISH 3 in 1 >> ENDLESS SHINE

Product video:

Power Protect Ultra 2 in 1

High-Gloss Finish & Wax

2 in 1: Silicone-free coating sealant and a high-gloss finish.

Ultimate performance that goes the distance: Removes fine streaks and holograms in addition to forming a protective film that counteracts the adhesion of dirt.

Cut/Gloss: 2 / 10

- Advantages:**
- 100 % silicone free, overpaintable
 - 2 in 1: High-gloss polish and sealant in one product
 - Tangibly smoother surface
 - Perfect water-beading

Polishing tool: **SOFT CUT FOAM PAD, WAX FOAM PAD,**
Microfiber cloth

Processing: Step 1: orbital
Step 2: orbital

Volumes: 250 ml 22753.281.001
1 l 22753.261.001

Process Example:

HEAVY DUTY COMPOUND 400 >> **POWER PROTECT ULTRA 2 in 1**

Heavy Cut Compound 1000

Pad polish for the fast removal of sanding marks.

This powerhouse eliminates scratches, overspray and pronounced signs of use quickly and thoroughly. Best price-performance ratio.

Category:	Standard
Cut/Gloss:	9 / 3

- Advantages:**
- Fast removal of sanding marks
 - Even sanding pattern
 - High productivity
 - No dust formation
 - Silicone free

Polishing tool: HEAVY CUT FOAM PAD

Processing: rotary

Volumes:	
250 ml	22984.281.001
1 l	22984.261.001
1 kg	22984.260.001

Process Example:

HEAVY CUT COMPOUND **1000** >> MEDIUM CUT POLISH **2000** >> FINAL FINISH **3000** >> POWER LOCK ULTIMATE PROTECTION

Heavy Cut Compound 1100

Lambswool polish for the removal of sanding marks.

The gentle yet highly effective secret weapon against scratches and severe signs of use. Optimised for use with lambswool.

Category:	Alternative
Cut/Gloss:	8 / 5

- Advantages:**
- Fast removal of sanding marks
 - Optimised formulation for use on Lambswool
 - Even sanding pattern
 - High productivity
 - No dust formation
 - Silicone free

Polishing tool: Lambswool

Processing: rotary

Volumes:	
250 ml	22930.281.001
1 l	22930.261.001
1 kg	22930.260.001

Process Example:

HEAVY CUT COMPOUND **1100** >> MEDIUM CUT POLISH **2400** >> FINAL FINISH **3000** >> POWER LOCK ULTIMATE PROTECTION

Medium Cut Polish 2000

The classic medium polish for the fast removal of signs of use. A solid basis for a fast victory. Reliably removes signs of use and delivers shine. Best price-performance ratio.

1 l 22070.261.001

For tangible
smooth surfaces

Standard
Protection

Process Example:

Liquid Carnauba Protection

Natural sealing blend for surface enthusiasts.

Long-lasting, functional protection combined with a soft, natural feel and brilliant deep gloss. Developed for perceptibly smoother surfaces.

Category: Alternative

- Advantages:**
- High-quality carnauba wax
 - Very high wax content
 - Hydrophobic surface
 - Very good drop formation
 - Soft surface feel
 - Ultimate deep gloss
 - For machine and manual processing

Polishing tool: WAX FOAM PAD,
Microfiber cloth

Processing: orbital, by hand

Volumes:
250 ml 22068.281.001
1 l 22068.261.001

Process Example:

HEAVY CUT COMPOUND 400 >> SUPER FINISH 3800 >> LIQUID CARNAUBA PROTECTION

Sealing Wax Protection

Standard coating sealant.

Produces a deep gloss and brilliance on the coating surface. Builds up a protective film that counteracts the adhesion of dirt.

Category: Alternative

- Advantages:**
- Reliable basic protection
 - Straightforward processing

Polishing tool: WAX FOAM PAD,
Microfiber cloth

Processing: orbital, by hand

Volumes:

Metal Polish

Universal Polishing Cream.

Metal Polish cleans and polishes stainless steel, aluminium, chrome, brass, copper, silver and plastics. Perfect gloss for exhaust, radiator grille, decorative strips, rims etc. Also perfect on domestic and leisure parts like cutlery, sanitary fittings, metal instruments etc.

Polishing tool:	Microfiber cloth
Processing:	1. Apply by hand with microfiber 2. Polish with circular movements 3. Remove residue with a clean, soft cloth

Volumes:	
125 g	23003.391.001

Control Cleaner

Cleaning spray for especially thorough polishing.

The ultimate pre-cleaner to support the visual inspection of the coating surface being worked on. Removes polish residues, grease and contaminants prior to sealing.

Advantages:	- Improved formulation - Cleans without streaks - Remove all traces of polishing residues and grease - Perfect wiping
-------------	--

Polishing tool:	Microfiber cloth
Processing:	by hand

Volumes:	
500 ml	26934.271.001

Process Example:

CONTROL CLEANER >> POLISHING >> CONTROL CLEANER >> SEALING

Endless Shine

Detailing spray to refresh the gloss.

Wellness program for all smooth surfaces like clear coat, glass, plastic or metal. Applies a protective film to the coating with a beautiful, deep gloss – including premium beading effect.

Advantages:	- Protection and gloss refreshment - Extended durability of the sealant - Perfect water beading - Antistatic effect
-------------	--

Polishing tool:	Microfiber cloth
Processing:	by hand

Volumes:	
500 ml	22747.271.001

MZ Wash

Premium Car Shampoo

Removes dirt without leaving residue and prepares the surface for polishing. This car shampoo dries quickly and leaves behind a beautiful deep gloss.

Vorteile	- Quick drying - Glossy surface - High cleaning power - Suitable for all coat types - Silicone free, pH neutral
----------	---

Polishing tool:	Washing Mitt, Microfiber cloth
Processing:	by hand

Volumes:	
1 l	26932.099.001

Process Example:

POLISHING/ SEALING >> ENDLESS SHINE // MZ WASH >> ENDLESS SHINE

Liquid Matt

Matting paste for surface preparation.

Establishes the conditions required for reliable results in repainting or refinishing. Works on a water basis – for mechanical or manual application.

- Advantages:**
- Uniform surface
 - Establishes the optimum basis for coating application
 - Straightforward application, even on rounded surfaces

Polishing tool: Non-woven abrasive, Lambs wool, **HEAVY CUT FOAM PAD**

Processing: rotary, by hand

Volumes:
1l 20144.261.001

Solid Grit

Sanding block for sanding clear coat surfaces.

Solid Grit reliably and easily removes scratches, runs, dust inclusions, etching and orange peel, and is perfect for use on repairs. The two P2000 and P3000 sanding blocks are supplied in a handy plexiglass case. Both blocks are very low-wearing and ensure the best manual sanding quality.

Processing: by hand

Volumes:
2 pieces per set 26902.100.000

Premium Pad Program

Original Menzerna polishing tools get the maximum out of your surface. The pads in different degrees of hardness are optimised for use with the Menzerna automotive polishing products. A safety edge protects against damage by the backing plate on curvatures. The washable foam perfectly adapts to the surface.

- Advantages:**
- Washable
 - Safety edge
 - High-quality Velcro
 - Convenient to use
 - Consistent, long-lasting foam

Application: rotary, orbital

Menzerna:
Economical, reliable and flexible
in application. Brilliant.

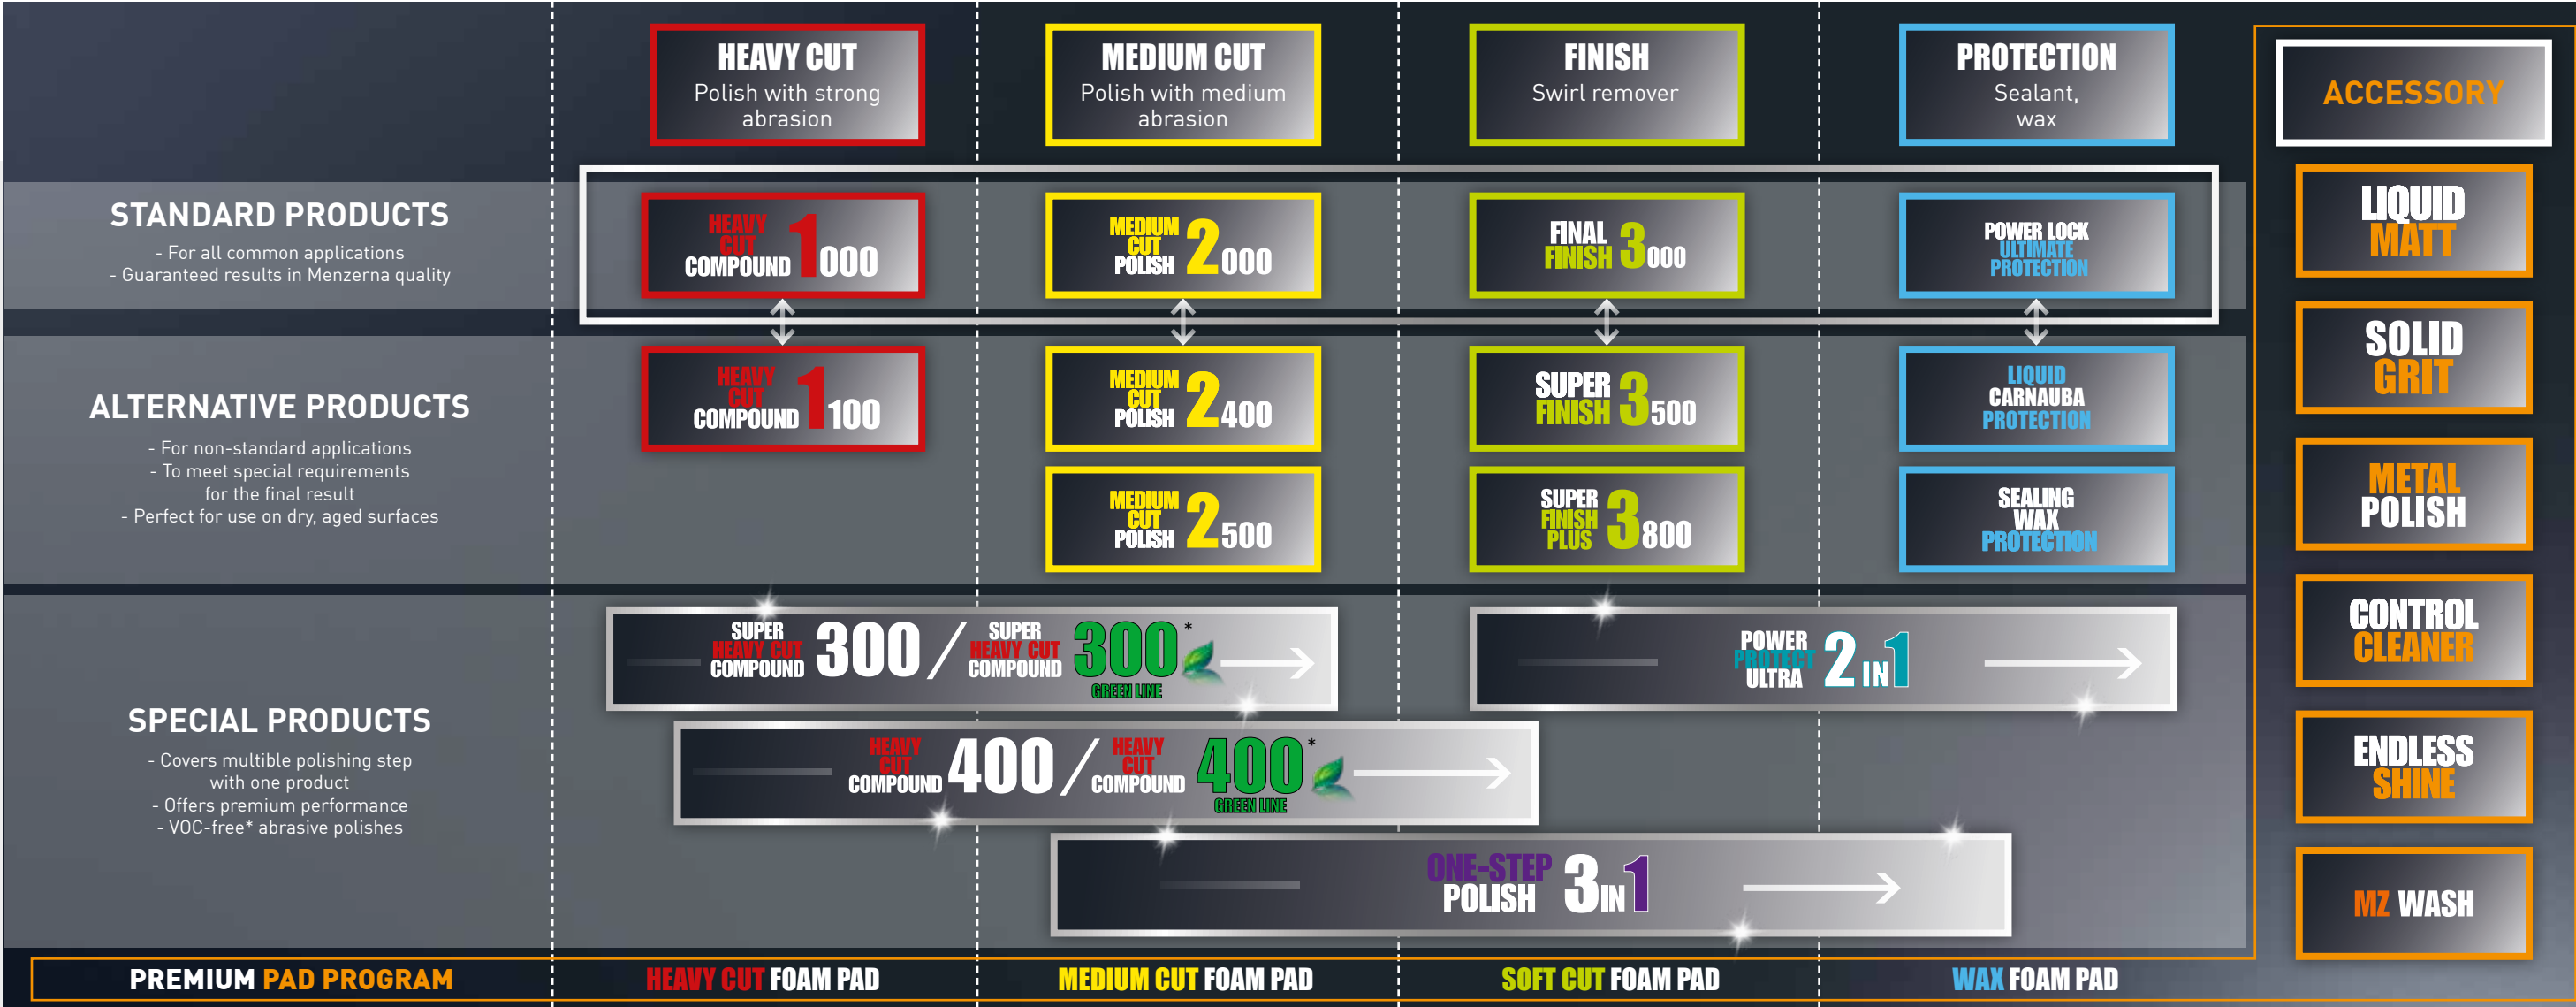

The Menzerna polishing programme is designed as a flexible
4-step polishing system.

Confidence in success
A standard product is assigned to each of the four polishing
levels – Heavy Cut, Medium Cut, Finish and Protection.
Together these products form the Menzerna standard
process, which is considered as recommendation.
Numerous application cases are securely covered in
practice with this process.

Quality through flexibility
Alternative and special products are available for each
polishing level – to meet the needs of special application
cases, or for even greater performance. All Menzerna
products are matched to each other so that the interplay
works 100 % at all times even when standard products
are exchanged.

**The latest polishing technologies for working
efficiently**
Many years of experience and close cooperation with the
automobile industry and leading coating manufacturers
ensure economic efficiency and fast processes. This is
where the specialty products, identified by the silver label,
truly come into their own. Multiple polishing steps are
covered by the latest polishing technologies.

At a glance:
The Menzerna Polishing Program

Note:
In the Menzerna process flyers, users will find system recommendations
for the fields of vehicle detailing, vehicle coating, finishing and care. www.menzerna.com

*VOC-free means free of Volatile Organic Compounds (VOC) in Acc. with DIN EN ISO 11890-2.

Polished surfaces that make an impression.
